

Dear Friends:

If you haven't checked out our Tech For All website lately, you're missing a lot of info about our activities, as well as some tips and valuable learning tools that may help you keep things running smoothly at your desktop. But in addition you can read on-going updates on how we're doing and the challenges we're facing in our mission of making computers available to people who cannot afford this essential equipment.

Nearly EIGHT THOUSAND Computers have been given away since 1999. Our exceptional army of volunteers who have learned not only to RECYCLE used computers, but also how to UPGRADE them! You see, as technology has developed and expanded in recent years, it's important that we give students and adults computers that can do the work according to today's standards. That means upgrading better used computers with enough memory and other capabilities that make them really useful, that is why we are proud of the LINUX Provision that we are now installing on all of our computers.

Because LINUX'S system is without background programs, and there are no virus or malware issues, our computers are fast and nimble on the Internet. So fast that almost all of the volunteers have converted their own equipment to Linux. I do not believe we have ever given away a better computer.

We continue to be grateful to David Gamel for his generous donation in providing a home for us. This office space has been a godsend that has helped us grow and put into place new efficiencies.

This is just a thumbnail of the many things happening at Tech For All. And we're anxious to tell you about the rest. So.....

Enclosed is your invitation to our Salute to the Volunteers Year End Party. We want you here! Your coming will encourage our hard-working volunteers and enlighten your understanding of what we're about in this, our sixteenth year of Tech For All. We thank you for your encouragement and support, and we want you to know it's much appreciated!

Hope to see you on the 2nd,

Rose Keating

Rose Keating – Director

11th Annual Salute to The Volunteers

*This is when we CELEBRATE the achievements
of our extraordinary volunteers.*

January 2, 2016 - NOON – 3

Champagne Toast and Lunch – Noon

...and a very special gift!
